

BT-001 BLUETOOTH RECEIVER

**USER MANUAL
Edition 0.1 (2020)**

Using the BT-001

1. Secure the BT-001 to the battery box of your headset using the hook/loop pads provided
2. Connect the BT-001 to the auxiliary input of your headset (If using SH30-75 use the long auxiliary cable supplied with the headset and secured to the headband and cable as required)
3. Ensure the BT-001 is fully charged before use (Charge using the supplied USB charging cable connected to a USB charger)
4. To put the BT-001 into pairing mode press and hold the power button for 3 seconds (until the blue LED flashes). Scan for Bluetooth devices on the device you wish to pair with it and select the audio adaptor.
5. To turn off the BT-001 press and hold the power button for 5 seconds until blue LED extinguishes
6. Adjust volume using the up and down buttons but ensure that you can hear radio comms at all times
